**PART I - THE SCHEDULE**  
**SECTION H - SPECIAL CONTRACT REQUIREMENTS**

**1. Sources of Information**

a. The results of the research to be delivered to the Government under this Contract shall embody the most recent reliable information in the field which is available to the Contractor from private and governmental sources, and the Contractor agrees to utilize all sources of such information available to it. In this connection, information in this field which is in the control of DSWA shall, with the consent of the COTR and under such safeguards and procedures as he/she may prescribe, be made available to the Contractor on request. Additionally, the Contractor is encouraged to make use of the resources available through the DoD Nuclear Information Analysis Center (DASIAC), 1680 Texas Street, Southeast, Kirtland AFB, New Mexico 87117.

b. Reasonable assistance in obtaining access to information, or in obtaining permission to use Government or private facilities, will be given to the Contractor by DSWA. Specifically, the Contractor must register with the Defense Technical Information Center, ATTN: DTIC, 8725 John J. Kingman Road, Suite 0944, Fort Belvoir, VA 22066, in accordance with DLAR 4185.10, Certification and Registration for Access to DoD Defense Technical Information. DD Form 1540, the registration form, shall be forwarded to the DSWA Contracting Officer for approval. (Ref. DoD/FAR Sup. 35.010(b).)

**2. Consultants**

Services of consultants shall be at rates and for periods approved in advance by the Contracting Officer. Requests for approval shall be submitted to the Contracting Officer sufficiently in advance of the need to use a consultant under this Contract. The request shall include (a) a copy of the proposed consultant agreement, (b) a brief biography of the consultant, and (c) an indication of the area(s) in which consultant's expertise will be utilized and why it is essential for contract performance. In addition, significant deviations from the dollar amount approved for consultant services, or changes in the consultants to be utilized, must likewise be approved in advance upon submission of adequate justification.

**3. Travel**

a. Approval of the Contracting Officer shall be obtained in advance for attendance by personnel at training courses, seminars, and other meetings not directly related to contract performance.

b. All foreign travel shall be authorized and approved in advance, in writing, by the Contracting Officer. Request for such travel must be submitted to the Contracting Officer at least 45 days in advance of the traveler's anticipated departure date and shall include the traveler's itinerary on United States Flag Air Carriers.

**PART I - THE SCHEDULE**  
**SECTION H - Continued**

**4. Acquisition and Disposition of Government Property**

a. Part 45 of the Federal Acquisition Regulation (FAR) requires contractors performing Government contracts to provide all property necessary to perform the contracts, unless otherwise exempted.

b. Property (see FAR 45.101) of any kind, unless incorporated in a physical end item to be delivered, shall not be acquired for the Government's account under the contract unless the Contracting Officer has provided prior written approval, or unless the property is specifically identified in the contract. The contractor will not be reimbursed for such unauthorized purchases, either directly or indirectly, and the parties agree that costs associated with such unauthorized purchases are specifically unallowable.

(1) Prior to acquiring Industrial Plant Equipment (IPE) (245.301 of DoD FAR Supplement), existing Government equipment shall be screened pursuant to Part 245.302-1(b)(1)(A) of the DoD FAR Supplement.

(2) Prior to acquiring Information Technology Equipment, existing Government equipment will be screened pursuant to Part 245.302-1(b)(1)(B) of the DoD FAR Supplement and DoD 7950.1-M, Defense Automation Resources Management Manual.

c. Government property that is no longer needed for this contract shall be listed by the contractor on appropriate inventory schedules (FAR 45.606). The contractor shall forward the inventory schedules to the cognizant Plant Clearance Officer at the Defense Contract Management Command (DCMC) contract administration office for processing. The type and sequence of screening depends on the nature of the property involved as specified in FAR Table 45-1. Property determined by the Plant Clearance Officer to be subject to agency screening or special item screening requirements of FAR 45.608-3 and 45.608-5 shall be screened by the Plant Clearance Officer who shall route their request to Headquarters, Defense Special Weapons Agency, ATTN: LEL. (Note: Address to ATTN: ISI for Information Technology requests.) The time periods imposed by FAR Part 45 for this agency screening or for special item screening shall be adhered to in all cases. Upon completion of all required screening, the Plant Clearance Officer will provide instructions for all remaining property.

d. The term "Low Value Property" cited in paragraph (g)(5) of FAR Clause 52.245-5, Government Property (Cost Reimbursement, Time & Materials or Labor Hour Contracts)(Deviation) and incorporated into SECTION I of this contract by reference, is defined as Government property in the classes of special tooling, special test equipment, and plant equipment with an acquisition cost of \$1,500.00 or less. It does not include agency-peculiar property, material, real property, and sensitive property. The term "sensitive property" means Government property for which the theft, loss, or misplacement could be potentially dangerous to the public health or safety, or which must be subject to exceptional physical security, protection, control, maintenance or accountability, including but not limited to, hazardous property, precious metals, arms, ammunition, and explosives and classified property.

**PART I - THE SCHEDULE**  
**SECTION H - Continued**

**5. Government Furnished Property/Facilities and Services**

In accordance with the Clause(s) of the General Provisions numbered "52.245-5," the following property, facilities, and/or services shall be provided for use in the performance of this Contract. Disposition shall be provided at contract completion as necessary.

<u>Qty</u>	<u>Property Nomenclature</u>	<u>I.D. No.</u>
	*	

<u>Qty</u>	<u>Facilities/Services Computer (at Los Alamos Nat'l Labs (LANL))</u>	<u>I.D. No.</u>
	*	

**6. Key Personnel**

The personnel listed below are considered essential to the work being performed hereunder. Prior to removing, replacing, or diverting any of the specified individuals, the Contractor shall notify the Contracting Officer reasonably in advance and shall submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this Contract. No deviation shall be made by the Contractor without the prior written consent of the Contracting Officer; provided, that the Contracting Officer may ratify in writing the change, such ratification shall constitute the consent of the Contracting Officer required by this paragraph. The personnel listed below may, with the consent of the contracting parties, be amended from time to time during the course of the Contract to either add or delete personnel as appropriate.

*To be determined by the Government on review of Technical/Management Proposals.*

**8. Fast Track Procurement**

a. This procurement has been identified as a DSWA FAST TRACK. The Agency intends that your signed response to this Solicitation, as may later be amended by you if a revision to your offer is requested, will form the total basis for award and that no further signature by the offeror will be requested or required. Responses to "fill-ins" in the Solicitation become a part of the contract under the FAST TRACK procedures and are releasable under the Freedom of Information Act, e.g., price and fee, address for payment, key personnel.

b. The technical proposal, although not incorporated in this Contract, was a material element in your selection for award to the extent it is consistent with the Statement of Work and other terms of the resulting contract.

**9. Incorporation of SECTION K By Reference.**

Pursuant to Federal Acquisition Regulation (FAR) 15.204-1(b), SECTION K of the solicitation is hereby incorporated by reference.

**\* TO BE DETERMINED**

**PART I - THE SCHEDULE**  
**SECTION H - Continued**

**10. Contractor Performance Evaluation.**

a. As required by FAR 42.1502, the Government shall conduct one or more evaluations of the contractor's performance under this contract. The criteria and rating levels used for each of these evaluations are set forth in Section J, Attachment 3 to the Contract Schedule, "CONTRACTOR PERFORMANCE EVALUATION FORM."

b. These performance evaluations shall occur as a part of this contract as designated below:

  X   A Final Evaluation at the end of the contract period of performance.

  X   Interim Evaluation(s) according to the following schedule:

  12   months after contract (MAC)

  24   months after contract (MAC)

       At the request of the Government, a verbal, informal review of the contractor's performance may be held 3-6 months before the completion of the Interim or Final Evaluation. This review entails discussing any problems or areas of concern regarding the contractor's performance to date. No written evaluation form or other formal documentation is required for this evaluation. It may be conducted with the contractor by telephone, teleconference or face-to-face. This is designed to offer the Contractor an opportunity to correct known deficiencies or weaknesses prior to the formal written evaluation.

c. As set forth in FAR 42.1503(b), any disagreements regarding the performance evaluation(s) that cannot be resolved by the parties shall be reviewed by the Director, Acquisition Management, DSWA, prior to inclusion in the contract record.

**PART II - CONTRACT CLAUSES  
SECTION I**

**COST REIMBURSEMENT  
February 1998**

**NOTICE:** As set forth in Clause I.1, the following contract clauses pertinent to this section are hereby incorporated by reference. In keeping with the DSWA Acquisition Management Streamlining Initiative and users requests to reduce the bulk of solicitation and contract documents, the Federal Acquisition Regulation (FAR) and the Department of Defense Supplement to the FAR (DFARS) clauses are referenced in this document to the maximum possible extent.

The complete text of any or all of the FAR and DFARS clauses and provisions referenced anywhere in this document are available electronically from the following World Wide Web (WWW) Home Pages.. The referenced clauses and provisions are those in effect through Federal Acquisition Circular (FAC) 97-3 and Defense Acquisition Circular (DAC) 91-12. If these WWW Home Pages are not accessible, a complete text of clauses or provisions referenced in this document should be obtained from the Contracting Officer. In the event of a conflict between the electronic versions of the FAR or DFARS and the looseleaf version, the looseleaf version takes precedence.

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

**( ) (3) Certificate of Monetary Exemption.**

The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling more than \$25 million (of which at least one awarded exceeded \$1 million) in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION K - Continued**

**( ) (4) Certificate of Interim Exception.**

The offeror hereby certifies that (i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and (ii) in accordance with 48 CFR, Subpart 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under subparagraphs c.(1) or c.(2) of Part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

**CAUTION:** Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$25 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period for lowering the cost accounting period in which the monetary exemption was exceeded.

**II. COST ACCOUNTING STANDARDS - ELIGIBILITY FOR MODIFIED CONTRACT COVERAGE**

**( )** The offeror hereby claims an exemption from the Cost Accounting Standards Clause under the provisions of 48 CFR, Subpart 9903.201-20(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices Clause because during the cost accounting period immediately preceding the period in which the proposal was submitted, the offeror received less than \$25 million in awards of CAS-covered prime contracts and subcontracts, or the offeror did not receive a single CAS-covered award exceeding \$1 million. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

**CAUTION:** An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$25 million or more or if, during its current cost account period, the offeror has been awarded a single CAS-covered prime contract or subcontract of \$25 million or more.

**III. ADDITIONAL COST ACCOUNTING STANDARDS APPLICABLE TO EXISTING CONTRACTS**

The offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph a.(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

**1. FAR 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY  
REFERENCE (JUN 1988)**

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available.

**(END OF PROVISION)**

**2. Use of Government Production and Research Property (P&RP)**

a. It is the policy of the DoD that contractors will furnish all property required for performance of Government contracts, except in those limited situations set forth in FAR 45.302 and DoD FAR Sup. 45.302 whereby the Government may provide property.

b. All Government P&RP to be furnished to the successful offeror, if any, will be identified in Section H of the contract arising out of this Solicitation.

c. When the Government does furnish property to a Contractor, it is DoD policy to eliminate any competitive advantage that might otherwise arise from the use of such property. Any such competitive advantage will be eliminated by the use of an appropriate evaluation factor as set forth in FAR 45.2, except when the Contracting Officer determines that the use of such an evaluation factor would not affect the choice of the Contractor.

d. If the offeror proposes that Government P&RP be furnished for the performance of the Contract, including offers where the evaluation factor will not affect the choice of Contractor, such P&RP must be individually justified and the period of use specifically defined. In the event this is a competitive acquisition, Contractor must furnish with his proposal the rent charge for use of such property or equipment. Authorization for use of Government P&RP will be obtained by the Contractor directly from the Contracting Officer having cognizance of the property.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION L - Continued**

**3. Instructions for Preparing Proposals**

Each offer must consist of the documentation listed below. Offers not conforming to the requirements of the RFP may be rejected. The offer shall consist of the following parts:

<b>PART I</b>	<b>ADMINISTRATIVE DATA</b>
<b>PART II</b>	<b>COST PROPOSAL</b>
<b>PART III</b>	<b>MANAGEMENT/TECHNICAL PROPOSAL</b>

Parts II and III shall be separately loose bound; however, if any part is of sufficient volume, it also may consist of two or more separate loose-leaf sections.

All proposals shall be complete and respond directly to the requirements of the solicitation. The factors and subfactors listed in Section M of the solicitation shall be addressed.

**Extraneous, repetitious or wordy submissions are not desired and could result in lower ratings.**

The proposal must lie flat when open, elaborate binding is not desirable.

No models, mockups or video tapes will be accepted

The three parts shall, as a minimum, contain the information specified in the paragraphs below:

**a. PART I - ADMINISTRATIVE DATA:**

The Administrative Data part of the offer shall consist of two severable portions, the basic and the addendum.

**(1) The basic portion shall consist of:**

- (i) Completed Standard Form 33, Solicitation Offer and Award;**
- (ii) Completed Section K of the RFP;**
- (iii) All attachments/certifications to the RFP requiring items to be filled in**

**by the offeror;**

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION L - Continued**

(iv) If the RFP is designated as “FAST TRACK,” an original copy of the entire RFP document. It will be physically incorporated and will form the major element of the contract document.

(v) A statement regarding acceptability of proposed contract clauses. The offer may include any recommendations regarding additions and/or deletions to proposed contract terms, type of contract, or justification supporting deviation.

(vi) Name address and telephone number of cognizant ACO and auditor contracts.

(2) The addendum shall consist of a list of the last 5 contracts and subcontracts of a similar nature, either completed or currently being performed during the last three years. Offerors shall explain the relevance of each listed contract to the current solicitation’s requirements. Contracts listed may include those entered into by the Federal Government, agencies of state and local governments and commercial customers. Offerors that are newly formed entities without prior contracts should list contracts and subcontracts as required for all key personnel. The Government may contact these customers for auxiliary past performance information relating to this acquisition. The offeror may use the sample Contractor Authorization Letter, attached to this solicitation, to authorize these customers to respond to the Government’s inquiries. Include the following information for each contract and subcontract:

(i) Name of contracting activity.  
(ii) Contract number.  
(iii) Contract type.  
(iv) Total contract value, both at the time of award and now. Include both exercised and unexercised options.

(v) Brief description of the contract work, including program title and indicating what kind of work involved, e.g., developmental effort, production, commercial item, services, operations and maintenance, facilities use, etc. This description should not exceed one typewritten page per contract.

(vi) Name of procuring contracting officer (PCO) along with his or her telephone number and facsimile number. Use current name as point of contact for on-going contracts or the last individual’s name for completed contracts.

(vii) Name of Contracting Officer’s Technical Representative (COTR), telephone number and facsimile number.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION L - Continued**

- (viii) Name of Administrative Contracting Officer (ACO), if different from (vi), telephone number and facsimile number.
- (ix) Period of performance and/or delivery schedule, both at time of award and now (or actual delivery date(s) if contract is completed).
- (x) List of major subcontractors, including information called out under items (iii), (iv), (v) and (ix). Also include the name, address, telephone number and facsimile number of a corporate point of contact for each subcontractor.
- (xi) A brief description of problems encountered and corrective actions taken to resolve those problems. This should not exceed one typewritten page per contract. Offerors should not provide general information on their performance on the identified contracts. General performance information will be obtained from the references.

The addendum may also contain a description of any quality awards or certifications that indicate the offeror possesses a high-quality process for developing and producing the product or service required. Such awards or certifications include, for example, the Malcolm Baldrige Quality Award, other government quality awards, and private sector awards or certifications (e.g., the automobile industry's QS 9000, Semitech's SSQA, or ANSI/EIA-599). Identify what segment of the company (one division or the entire company) that received the award or certification. Describe when the award or certification was bestowed. If the award or certification is over three years old, present evidence that the past qualifications still apply.

The offeror may submit the above administrative data, both basic and the addendum portions, in the form of attachments to a letter of transmittal.

**b. PART II - COST PROPOSAL:**

- (1) The Cost Proposal shall be submitted separately from the Management/Technical Proposal and shall provide data for evaluation by separate pricing evaluators.
- (2) The Cost Proposal shall assume exclusive use of the DSWA CRAY or VAX at Los Alamos National Labs as GFE. If the Offeror can justify use of contractor-furnished computer support, he/she may submit a cost proposal reflecting this support. It must be clearly understood that this separate cost proposal is optional, but if submitted, must be complete and separate from the required cost proposal.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION L - Continued**

**c. PART III - MANAGEMENT/TECHNICAL PROPOSAL:**

(1) The Management/Technical Proposal shall include a break-down of direct labor, subcontract, and consultant hours without benefit of cost/dollar amounts. Cross referencing to PART II is not permitted.

(2) The Management/Technical Proposal shall be prepared in the same sequence as the Technical Evaluation Criteria.

**4. Proposal Page Limitations.**

a. Offerors shall submit direct and concise proposals in which PART III, the Management/Technical volume shall not exceed 40 pages. The table of contents and tabs are exempt from the page limits.

b. Any technical proposal pages submitted which exceed the page limitations set forth above will not be read or evaluated. Proposal pages failing to meet paragraph d format will not be read or evaluated.

c. No program cost data or cross-reference to the cost proposal will be included in any other volume.

d. Format of the above proposal volumes shall be as follows:

(1) Proposals will be prepared on a 8 1/2 x 11 inch paper except for foldouts used for charts, tables or diagrams, which may not exceed 11 x 17 inches. Foldouts will not be used for text. Pages will have a one inch margin.

(2) A page is defined as one face of a sheet of paper containing information. Two pages may be printed on one sheet.

(3) Type size will be no smaller than 10 point character height (vertical size). Use of type-setting techniques to reduce type size below 10 points is not permitted. Such techniques are construed as a deliberate attempt to circumvent the intent of page limitations set forth above. Graph legends and diagram descriptions may be smaller than 10 point typeface, but must be legible.

e. Contractor management discretion is to be used regarding the number of pages for PARTS I, II and IV. However, refer to FAR clause 52.215-20 Alternate III, referenced in this SECTION to determine the electronic media, if any, permitted for submittal of PART II.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION L - Continued**

**5. Government-Owned Facilities**

The offeror is required to submit a detailed list of any Government-owned facilities, industrial equipment, special tooling or special test equipment which is intended to be used in the performance of the contract. This list shall include acquisition cost (including rental or lease costs) and identification of the Government contract under which the item is currently accountable. You are requested to include in your cost proposal the amount of costs by which any resulting contract has to be increased in the event rent-free use of Government-owned facilities described above is not authorized.

**6. Certificate of Current Cost or Pricing Data**

If no exception from the requirement to submit cost and pricing data is granted by the Contracting Officer, under the requirements of Clause 52.215-20(a), failure to fully and expeditiously comply with Clause 52.215-20(b) and FAR 15.404(b), if applicable, will result in additional work, possible rejection of your proposal, or as a minimum, cause a delay in making an award to your concern. **THE CERTIFICATE MUST BE COMPLETED AND SIGNED BY AN AUTHORIZED COMPANY OFFICIAL.**

**7. Facility Clearance**

The offeror must possess, or acquire prior to award of a contract, a facility clearance equal to the highest classification stated on the Contract Security Classification Specification (DD Form 254) attached thereto.

**8. Submittal of Cost Accounting Standards Board Cost-of-Money (COM) Factors Computation Form (CASB-CMF)**

Pursuant to DoD FAR Supplement 30.70, unless otherwise exempted, you are required to submit a current and complete CASB-CMF form with the cost portion of your proposal in accordance with paragraphs 414.40 and 414.50 of Cost Accounting Standard 414, Cost of Money as an Element of the Cost of Facilities Capital. **NOTE: This requirement applies to all negotiated contracts regardless of Cost Accounting Standard coverage. If your offer does not claim cost of money, it should so state, and submission of the CASB-CMF form is unnecessary. If your offer is successful, the definitive contract, SECTION H, will include a clause disallowing COM for performance under that contract.**

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION L - Continued**

**9. Government Estimate of the Technical Effort.**

The Government estimate of the technical effort called for in Attachment No. 1, Statement of Work, is provided for assistance in proposal preparation.

Twenty (20) Man years

The contemplated start work date is: 98AUG30 .

**10. Technical and/or Cost Discussions.**

It is anticipated that any revisions to the Management/Technical proposals will be limited in scope and effect. At the Government's option, face-to-face technical and/or cost discussions may be held at DSWA offices. During these discussions, the offeror may be asked to present a short briefing (lasting about 45 minutes) summarizing its management/technical proposal. The intent of these discussions will be to expeditiously resolve all outstanding technical and/or cost issues. Therefore, the offeror must be represented by an individual authorized to sign legally binding documents.

**11. Acceptance of Partial Offers.**

Offers predicated on accomplishing some, but not all, of the work of individual tasks specified in this Statement of Work (SOW) contained in the RFP will not be considered for award of a contract.

**12. Questions Concerning this RFP**

Any and all questions concerning this RFP, including technical questions, shall be directed to the Contract Negotiator, Mr. Daniel Bertuna, at (703) 325-1197, in writing. All DSWA technical personnel have been strictly prohibited from discussing this RFP with any contractor personnel until contract award, if any.

**13. Direct Submittal of Vouchers,** The offeror may request the Contracting Officer to approve the submittal of vouchers directly to the Defense Finance and Accounting Service (DFAS) address for the resulting contract. Evidence of authorization for such direct submittals by the Defense Contract Audit Agency (DCAA) must accompany the request.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION M - EVALUATION FACTORS FOR AWARD**

**NOTICE:** The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by Reference:

	<b><u>FAR Provision</u></b>		
	<b><u>Number</u></b>	<b><u>Provision Title</u></b>	<b><u>Date</u></b>
<u>      </u>	52.217-3	Evaluation Exclusive Of Options	(Apr 1984)
<u>      </u>	52.217-4	Evaluation Of Options Exercised At Time Of Contract Award	(Jun 1988)
<u>  X  </u>	52.217-5	Evaluation Of Options	(Jul 1990)

**1. Evaluation Criteria**

a. The award of any contract as a result of this RFP will be made primarily on the basis of technical/management superiority (AREA A) with AREAs B & C being carefully considered. The proposal will be evaluated for merit and ability to meet the objectives of the acquisition for Integrated Target Planning Tool Set (ITPTS) on the areas and items listed in this Section and will be competitively rated on these criteria. It is important that adequate and specific information be furnished. Hasty responses or responses which merely repeat the SOW cannot be considered as being responsive to the requirements of the RFP. Assurances of experience, capability or qualifications, without a clear demonstration to support the claim, will adversely influence the evaluation of the proposal.

b. (1) Each offeror will be evaluated on its performance under existing and prior contracts for similar products or services. Performance information will be used for both responsibility determinations and as an evaluation factor against which offerors' relative rankings will be compared to assure best value to the Government. The Government will focus on information that demonstrates quality of performance relative to the size and complexity of the procurement under consideration. References will be asked to respond to the questions found on pages 3-5 of the Contractor Performance Evaluation Form identified in Section J. References other than those identified by the offeror may be contacted with the information received used in the evaluation of the offeror's past performance after that information, if adverse, is brought to the offerors attention. Contact with references may be verbal or in writing.

(2) The extent of subcontracting with small disadvantaged business and HBCUs/MIs will be evaluated as a general consideration on the basis of information available to DSWA as it relates to the items set forth in c. below.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION M - Continued**

c. The areas of evaluation are as follows:

**AREA A: TECHNICAL/MANAGEMENT.** Items within AREA A are in descending order of importance.

**I. Management and Personnel**

**A. Technical Skills, Management experience, Adaptability and Responsiveness:**

1. Does the proposal develop a clear and succinct solution to the proposed research and development effort.
2. Is the contract's proposed staff knowledgeable, as demonstrated by reports, papers, publishing's, completed projects, etc. in the tools, techniques and models required by this contract?
3. Does the proposed team reflect the appropriate mix of specialties, skills and experience to accomplish the proposed effort?
4. Has the contractor demonstrated satisfactory completion of similar projects of this magnitude and complexity?
5. Has the contractor provided documentation showing the ability to adapt to changing requirements while remaining responsive?

**B. Task Assignment:**

1. Does the management plan show clear line of responsibility, communication and coordination between project team members?
2. Does the contractor make effective use of the specialized skills of the proposed subject matter experts?
3. Has the contractor proposed labor allocation by task, fiscal year and labor categories?

**C. Cost :**

1. Is there a clear plan for tracking cost, progress, and deliverables?
2. Are proposed reports is sufficient detail to monitor progress?

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION M - Continued**

**II. Understanding the Problem**

1. Does the contractor show a thorough knowledge of the weaponeering process as it relates to targeting weapons on mass destruction facilities?
2. Does the contractor show a thorough knowledge of existing weaponeering tools reflected in the SOW?
3. Has the contractor provided sufficient documentation demonstrating knowledge and experience in the current and projected Global Command and Control System?
4. Has the contractor provided sufficient documentation demonstrating a vast knowledge of complex computer operating systems and languages to include C++, HTML, JAVA/JAVA Script, CORBA, DECOMMs'?

**III. Technical Approach:**

1. Has the contractor proposed a solution that is commensurate with the complexity and uncertainties of the problem?
2. Has the contractor proposed an innovative approach within existing and forecasted command and control computer systems as using state of the art command-line and application-line interfaces and languages?

**AREA B - PRICE PROPOSAL.** The proposal is presumed to represent the offeror's best efforts to respond to the Solicitation. Any inconsistency, whether real or apparent between promised performance and cost or price, must be explained in the proposal. For example, if unique and new approaches are the basis for an abnormally low estimate, the nature of these approaches and their impact on cost must be explained. Any significant inconsistency, if unexplained, raises a fundamental issue of the offeror's understanding of the nature and scope of the work required. It also may reflect on the offeror's ability to perform the contract within the financial restraints and may be cause for rejection of the proposal. The burden of proof as to cost credibility rests with the offeror.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION M - Continued**

**ITEM I - Risk Assessment.** Cost or price proposals will be evaluated to identify and assess potential risks which may be inherent in the offeror's approach. The estimated costs to correct any deficiencies in the offeror's proposal will also be evaluated.

**ITEM II - Cost Realism.** Proposed cost will be evaluated not only to determine if the estimate is reasonable, realistic, cost effective and affordable, but also to determine the offeror's understanding of the program.

**ITEM III - Price.** Evaluation factors other than price, when combined, are significantly more important than price. Although Price is not a weighted factor, its importance cannot be ignored; the importance of price in selection will increase as the quality difference between proposals decreases.

**AREA C PAST PERFORMANCE.** Past Performance is evaluated on current recently performed relevant contracts both inside and outside the Federal Government. The five (5) past performance subfactors identified below are of equal importance. The criteria for the different rating levels (i.e., exceptional, very good, satisfactory, marginal and unsatisfactory) are identified in the "Ratings Guidelines" portion of the Contractor Performance Evaluation Form, set forth in Section J as Attachment Number 3 to the Contract Schedule.

- a. Quality of Product or Service
- b. Timeliness of Performance
- c. Cost Control
- d. Business Practices
- e. Customer Satisfaction

2. **Relative Importance.** A tradeoff process, as authorized in FAR 15.101-1, may be used in the source selection under this procurement. Evaluation factors other than Price, when combined, are significantly more important than Price. The relative importance of the AREAs cited in provision M-1 above are listed below in descending order. However, note that the importance of Price in selection will increase as the quality difference (superiority of evaluation factors other than Price) between proposals decreases. An AREA listed below with an asterisk is considered to have equal importance as the AREA listed directly above it.

- a. AREA A - Technical / Management
- b. AREA B - Price
- c. AREA C - Past Performance

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION M - Continued**

**3. Additional Information Concerning the Evaluation of Past Performance.**

a. Where the offeror has demonstrated an exceptional performance level in any one of the subfactors listed in Provision M-2, or has received a widely recognized quality award specifically for such, additional consideration may be given by the contracting officer for that factor. It is expected that this rating will be used in those rare circumstances when contractor performance clearly exceeded the performance levels described as “exceptional” in the Scoring Guidelines.

b. Assessment of the offeror’s past performance will be one means of evaluating the credibility of the offeror’s proposal, and relative capability to meet performance requirements.

c. Information utilized will be obtained from the references listed in the proposal, other customers known to the Government, consumer protection organizations, and others who may have useful and relevant information. Information will also be considered regarding any significant subcontractors, and key personnel records. Any information obtained will be identified as “source selection information.”

d. Evaluation of past performance will often be quite subjective based on consideration of all relevant facts and circumstances. It will include a determination of the offerors commitment to customer satisfaction and will include conclusions of informed judgment. However, the basis for conclusions of judgment will be documented.

e. Award may be made from the initial offers without discussions. However, if discussions are held, offerors will be given an opportunity to address unfavorable reports of past performance, if the offeror has not had a previous opportunity to review the rating. Recent contracts will be examined to ensure that corrective measures have been implemented. Prompt corrective action in isolated instances may not outweigh overall negative trends.

f. If an offeror, or the proposed employees for the offeror, does not have a past performance history relating to this solicitation, the offeror will receive a neutral past performance rating in accordance with FAR 15.606(a)(2)(iii). A neutral past performance rating is determined by the mean average of the past performance rating of all other offerors to this solicitation with a past performance history.”

## **Statement of Work for Integrated Target Planning Tool Set**

### **1.0 SCOPE:**

Under this contract, the contractor will design, develop, deliver, and install the Integrated Target Planning Tool Set (ITPTS). This effort will provide the warfighter with an integrated capability for pre-attack target planning, consequence assessment, and post-attack assessment for the full spectrum of weapons and targets.

### **1.1 BACKGROUND:**

Currently warfighters must use a large number of weaponeering and collateral effects tools to plan precision attacks against WMD and to predict the release of hazardous materials and down-range hazard. However, tool interoperation is hindered by two problems. First, the tools lack of a common data exchange formats and interfaces and second, the tools are developed in a variety of languages, operating systems, and hardware platforms. Finally, the warfighter must master the intricacies of all of these tools, and to coordinate their use.

The warfighting sponsor of the Counterproliferation (CP) Advanced Concept technology Demonstration (ACTD), USEUCOM, has identified a requirement for enhanced planning tools. The Counterproliferation 1 (CP1) ACTD developed and delivered a target planning suite called the Integrated Munitions Effects Assessments (IMEA) primarily designed for contingency planning. IMEA consists of a weaponeering module, the Munitions Effects Assessment (MEA) and a Hazard Assessment and Prediction Capability (HPAC) integrated into a seamless tool.

The ACTD, Counterproliferation 2 (CP2), will develop and deliver the Integrated Target Planning Tool Set (ITPTS). The ITPTS will provide the warfighter a new deliberate planning capabilities as well as an enhanced contingency planning capabilities. These capabilities include accurate methods of determining probabilities of damage and potential target generated collateral effects for various types of targets. A major goal of this effort is to institutionalize the end-to-end nuclear, chemical or biological (NBC) related target planning support for the warfighter. CP2 focuses on conventional and advanced conventional weapons against NBC related targets.

### **1.2 OBJECTIVE:**

The objective of the effort is to provide a standardized weaponeering framework greatly increasing efficiency while minimizing warfighter training requirements. The ITPTS will expedite cross service weaponeering and joint planning. This work develops a framework that integrates new and existing weaponeering, damage assessment, and collateral effects tools and provides the warfighter a common look and feel among all tools as well as inter-tool interoperability. The ITPTS will provide the warfighter with guidance in tool selection and use that is based on target characteristics, intel, and time available. This work provides geographically distributed weaponeers across multiple services and allies access to the suite of planning tools. Finally the ITPTS will be compatible with the Global Command and Control System

(GCCS) and other services' planning tools while usable on a wide range of platforms from PC class to large workstations; and with intelligence community deliberate planning tools.

## **2.0 APPLICABLE DOCUMENTATION**

## **3.0 REQUIREMENTS (TASKS)**

### **3.1 TASK 1: FRAMEWORK DEVELOPMENT**

The contractor shall develop an object oriented framework that supports the exchange of data and computational results between different tools that are running on heterogeneous platforms and operating systems. At a minimum, the framework will be compatible with Windows (Windows 95 and NT) operating systems and UNIX operating systems. The contractor will identify existing weaponeering, battle damage assessment, WMD collateral effects and other weapon effects tools that are suitable for inclusion. The contractor shall prioritize the tools for implementation in the phases below. Software entities to be included, but are not limited to, are: Integrated Munitions Effects Assessment (IMEA), Windows/UNIX JMEM, JMEM Air -to-Surface Weaponeering System (JAWS), JMEM Target Complex (TARCOM), Modular Effectiveness Vulnerability Assessment (MEVA), Agent Release Module (ARM), Internal Dispersion and Venting (IDV), Combat Weapons Delivery System (CWDS), JMEM Stickbomb, Hascal/Scipuff, Combat Capture System, Automated Target Folder (ATF), Electronic Target Folder (ETF) and the Tactical Multi-Sensor Fusion (TMSF) Module.

The contractor shall review existing and near term and future Service based planning, command and control software (i.e. Rapid Application of Air Power (RAAP), Air Force Mission Support System (AFMSS), Naval Tactical Aircraft Planning (TAMPS), Global Command and Control System (GCCS), Joint Targeting Toolbox (JTT) etc. The review will identify whether and/or how ITPTS will communicate with Service based planning tools.

### **3.2 TASK 2: PHASE I**

The contractor shall design, develop, test, and deliver the Phase I version of ITPTS. The Phase I version will support the CP2 ACTD. This version will integrate the minimum number of tools (between three and six tools) to provide the warfighter the following capabilities:

- *Access to the Target Folder* - The Target Folder will be developed by the Intelligence community and will contain the critical input to the detailed deliberate planning process. This folder must provide the targeteer all target information necessary for deliberate or crisis planning. A target could be a single structure and/or set of equipment, a facility that could contain or produce NBC material.
- *Deliberate Planning Capability* - The deliberate planning capability is a pre-planning capability where time is not as critical, where there is high end computer resources, and where the analysts are experts. The warfighter requires the following capabilities; weaponeering, battle damage assessment, and collateral effects assessment. It is anticipated that three or four tools will be integrated.
- *Target Database* - The database must provide the targeteer all target information necessary for crisis planning. It will contain information similar to the Target Folder, plus pre-weaponeered solutions generated in the deliberate planning process.
- *Contingency Planning* - The contingency planning capability a planning capability where time is critical (solutions within a few minutes), where computer resources are at a minimum (PC's), and where the weaponeers are not experts in weapon effects etc. The warfighter requires the following capabilities; weaponeering, battle damage assessment, and collateral effects assessment. In addition, the warfighter requires access to real-time weather conditions.

### **3.3 TASK 3: PHASE II (OPTION ONE)**

The contractor shall design, develop, test, and deliver the Phase II version of ITPTS. The Phase II version will support the final exercise of the CP2 ACTD. This version will integrate a more complete suite of tools (between three and six additional tools) to provide the warfighter the following capabilities:

- *Access to the Target Folder* - The Target Folder will be developed by the Intelligence community and will contain the critical input to the detailed deliberate planning process. This folder must provide the targeteer all target information necessary for deliberate or crisis planning. A target could be a single structure and/or set of equipment, a facility that could contain or produce NBC material.
- *Deliberate Planning Capability* - The deliberate planning capability is a pre-planning capability where time is not as critical, where there is high end computer resources, and where the analysts are experts. The warfighter requires the following capabilities; weaponeering, battle damage assessment, and collateral effects assessment. It is anticipated that three or four tools will be integrated.
- *Target Database* - The database must provide the targeteer all target information necessary for crisis planning. It will contain information similar to the Target Folder, plus pre-weaponeered solutions generated in the deliberate planning process.
- *Contingency Planning* - The contingency planning capability a planning capability where time is critical (solutions within a few minutes), where computer resources are at a minimum (PC's), and where the weaponeers are not experts in weapon effects etc. The warfighter requires the following capabilities; weaponeering, battle damage assessment, and collateral effects assessment. In addition, the warfighter requires access to real-time weather conditions.
- *External Communications* - The contractor shall assure compatibility with existing and near term Service based planning, command and control software (i.e. Rapid Application of Air Power (RAAP), Air Force Mission Support System (AFMSS), Naval Tactical Aircraft Planning (TAMPS), Global Command and Control System (GCCS), Joint Targeting Toolbox (JTT) etc.

### **3.4 TASK 4: INTEGRATED COMPREHENSIVE WEAPONNEERING CAPABILITY (ICWC) (OPTION TWO)**

The contractor shall expand the design to include a full spectrum of targets and weapons. The expanded design will be called the Integrated Comprehensive Weaponeering Capability (ICWC). The contractor adapt/develop, test, and deliver the ICWC. This version will integrate the minimum number of tools (between three and six tools) to provide the warfighter capabilities to weaponeer a full spectrum of targets and weapons including nuclear weapons and advanced conventional weapons.

### **3.5 TASK 5: USER TRAINING**

The contractor shall develop an interactive training tutorial within the software, provide wizards to aid users in the development of models and solutions and update the current help to increase hype-links and data access and increase context sensitivity. The contractor shall update all on line help file to clearly identify all steps that are required to obtain a solution and how to interpret the solution obtained. The on-line help shall clearly explain the meaning of all user required inputs, where those inputs can be obtained and provide typical values where appropriate.

### **3.8 TASK 8: REPRODUCTION, PACKAGING AND DISTRIBUTION**

The contractor shall reproduce, package and distribute no fewer than 300 but not more than 500 shrink wrapped silk screened copies of the version of the ITPTS/ICWC software including all inserts and art work. The contractor shall collect requests, insure that the requesters are qualified and approved to obtain the software. Prior to distribution, the contractor will provide the COTR with the distribution list for approval. Upon approval, the contractor shall deliver up to 15 copies of each beta version to the COTR or his designated representative.

## **CONTRACTOR PERFORMANCE EVALUATION**

Evaluators shall use the following "Common DoD Assessment Rating System." In accordance with DoD policy, "A fundamental principle for rating is that contractors shall not be assessed below a rating of satisfactory for not performing beyond the requirement of the contract." Circle the letter(s) corresponding to your rating. A narrative rationale is required to support the report card assessment rating and help determine relevancy in support of the source selection. If more space is required, use the back of this questionnaire. Hand written responses are sufficient.

### **Common DoD Assessment Rating System**

**Exceptional (E)** - Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.

**Very Good (VG)** - Performance meets contractual requirements and exceeds some to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.

**Satisfactory (S)** - Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.

**Marginal (M)** - Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.

**Unsatisfactory (U)** - Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.

Dear \_\_\_\_\_:

The Federal Acquisition Streamlining Act (FASA) of 1994 requires that Government agencies consider past performance as an evaluation factor for source selection in all competitively negotiated acquisitions currently exceeding the threshold of \$1,000,000. Defense Special Weapons Agency (DSWA) Solicitation No. DSWA01-98-R-\_\_\_\_\_ entitled, “\_\_\_\_\_,” falls within this threshold.

Your name has been provided by Contractor’s Name as a reference in response to this solicitation for the work they have performed (are currently performing) under contract contract number for your agency.

To comply with the FASA requirements stated above, DSWA requests that you fill out the attached “**Past Performance Questionnaire**” for this contract and fax your response to Negotiator’s Name by date. The DSWA fax number is (703) 325-9295.

If you have any questions regarding this request, please contact Daniel Bertuna at (703) 325-1197 (E-Mail at bertuna@hq.dswa.mil).

Sincerely,
